

Integrated Management System Policy of INSET s.r.o.

INSET s.r.o. has been working as a reliable, efficient and highly professional partner of investors, project organizations and building contractors since 1991. It is mainly focused on the field of geotechnical, geophysical and geological surveys and diagnostics of building structures.

INSET s.r.o. continuously develops and improves its long-term set integrated management system, which includes the areas of quality management, environmental protection and occupational health and safety.

The basic objective of the company's long-established integrated management system is to ensure a high quality and professional level of all its activities and to provide quality service delivery to all its customers.

The management of INSET s.r.o. hereby undertakes:

- to provide, develop and continuously improve quality services in compliance with legal and other relevant requirements;
- to provide and develop quality services in line with understanding all stakeholder needs and expectations, managing risks and opportunities and consolidating and expanding its competitive advantage for customer satisfaction;
- to secure all necessary resources for the operation and improvement of the integrated management system and to seek new technologies that enable increased customer satisfaction and comply with legal and other relevant requirements;
- to ensure safe and healthy working conditions for its employees, the prevention of accidents and damage to health, the prevention of pollution and the protection of the environment;
- to eliminate hazards and reduce occupational health and safety risks for all employees and all other persons who are present on the Company's workplaces with the Company's knowledge;
- to discuss quality, environmental and occupational health and safety issues at the workplaces with the employees and their representatives and to invite them to participate in their resolution.

Prague, 2023 December 15

Ing. Ludvík Hegrlík
